Re: Dr. Theodor D. Sterling

On July 6, 1971, we requested additional funding for Dr. Sterling. We had written you earlier with respect to the same project on May 21.

Approval has been received from all of you for funding at a total amount of \$36,800. The primary purpose of this project is the preparation of a position paper for use in connection with various presentations as described in our earlier letters. The project, however, originally also involved an attempt at documenting certain instances of intimidation with respect to some members of the scientific community. For various reasons, with which we agree, Dr. Sterling has deleted this from his final formal proposal and the overall budget has been reduced by \$2,000 to \$34,800. We assume there will be no objection to this change and are advising you so that your files will be complete with respect to this project. A modified proposal to be submitted to the CTR is enclosed.
